SOFTWARE

Northwind Analytics

Workflow software for mid-market manufacturers

The business

Northwind Analytics sells workflow software to mid-market manufacturers. A plant uses it to schedule production, track work on the shop floor, and hand a finished job to finance. Customers pay an annual subscription. The company was founded in 2016 and is based in Cleveland, Ohio.

About 140 manufacturers use the product. The average customer has stayed for more than five years. Revenue is about $18 million, and about 90 percent of that revenue is recurring. The company has about 40 people. The founder still runs it. There is no outside institutional investor named in this note.

A few facts

Industry	Software
Customers	About 140 mid-market manufacturers
Revenue	About $18 million, of which about 90 percent recurs each year
People	About 40
Ownership	Founder-led
Headquarters	Cleveland, Ohio

What this note does not say

This teaser does not include a customer list, a quality of earnings, a debt figure, or an asking price. It is a fictional one-page note for a demonstration. Northwind Analytics is not a real company, and this is not an offer to sell a business.
